PROFESSIONAL SUMMARY

Fullstack Web Developer with over 2 years of hands-on experience designing, developing, and deploying web applications for local government institutions. Delivered 12+ application modules for 7+ government clients across Java, Kalimantan, and Papua, involved end-to-end from requirements gathering to deployment. Skilled in CodeIgniter, Bootstrap, and RESTful API integration for production systems, with growing expertise in Laravel and Vue.js through personal projects. Track record of improving system stability by 30% and training 100+ end users to an 85% adoption rate. Transitioned into software development after 5+ years in data-focused administrative work, combining strong process discipline and attention to detail with modern web technologies.

WORK EXPERIENCE

Fullstack Web Developer

May 2024 – Present

Yogya Executive School — Yogyakarta, Indonesia

- Designed, developed, and deployed 12+ web application modules — including regional finance, procurement, village budget proposals, room reservation, employee data management, employee performance appraisal, teacher attendance tracking, guest book management, research & regional innovation proposals, HAKI (intellectual property) submission, CMS, and district health data collection — for 7+ local government clients spanning Java, Kalimantan, and Papua, using CodeIgniter, Bootstrap, JavaScript, and RESTful APIs.
- Involved in the full Software Development Life Cycle (SDLC) — requirements gathering, system design, development, testing, and deployment — ensuring solutions met each institution's operational needs.
- Collaborated with a team of 4 developers on RESTful API integration, new feature implementation, and bug fixes, improving system stability by 30%.
- Trained 100+ users from government institutions, achieving an 85% adoption rate within the first 3 months.
- Created onboarding guides and user documentation that accelerated system adaptation, improving new-user learning efficiency by 40%.

Service Administrator

September 2018 – May 2024

CV Elra Service — Magelang, Indonesia

- Managed end-to-end service data workflow as administrator for an authorized service center representing Sharp, Panasonic, Toshiba, and Changhong across the Magelang region — recording incoming devices, processing spare part orders, and maintaining accurate status updates for each service case.
- Compiled and submitted monthly claim reports to 4 major electronics brands, ensuring accurate and timely reimbursement documentation.
- Produced internal performance reports on technician productivity to support management's operational evaluations.
- Balanced full-time work with completing a Bachelor's degree in Information Systems (2018–2022), demonstrating strong time management and multitasking skills.
- Began self-studying web development during this role, leading to a full-time transition into software development in 2024.

EDUCATION

Bachelor of Information Systems

2018 – 2022

STMIK Bina Patria Magelang | GPA: 3.48/4.00
